Sega Mega Drive/Memory map

Start address	End address	Description	32X SH-2 address
$000000	$3FFFFF	Cartridge ROM/RAM	$2000000-$23FFFFF
$400000	$7FFFFF	Reserved (used by the Mega-CD and 32X)	
$800000	$9FFFFF	Reserved (used by the 32X)	
$840000	$85FFFF	32X frame buffer	$4000000-$401FFFF
$860000	$87FFFF	32X frame buffer overwrite mode	$4020000-$403FFFF
$880000	$8FFFFF	32X cartridge ROM (first 512kB bank only)	
$900000	$9FFFFF	32X cartridge bankswitched ROM (any 512kB bank, controlled by 32X registers)	
$A00000	$A0FFFF	Z80 memory space	
$A10000	$A10001	Version register	
$A10002	$A10003	Controller 1 data	
$A10004	$A10005	Controller 2 data	
$A10006	$A10007	Expansion port data	
$A10008	$A10009	Controller 1 control	
$A1000A	$A1000B	Controller 2 control	
$A1000C	$A1000D	Expansion port control	
$A1000E	$A1000F	Controller 1 serial transmit	
$A10010	$A10011	Controller 1 serial receive	
$A10012	$A10013	Controller 1 serial control	
$A10014	$A10015	Controller 2 serial transmit	
$A10016	$A10017	Controller 2 serial receive	
$A10018	$A10019	Controller 2 serial control	
$A1001A	$A1001B	Expansion port serial transmit	
$A1001C	$A1001D	Expansion port serial receive	
$A1001E	$A1001F	Expansion port serial control	
$A10020	$A10FFF	Reserved	
$A11000		Memory mode register	
$A11002	$A110FF	Reserved	
$A11100	$A11101	Z80 bus request	
$A11102	$A111FF	Reserved	
$A11200	$A11201	Z80 reset	
$A11202	$A12FFF	Reserved	
$A13000	$A130FF	TIME registers; used to send signals to the cartridge	
$A130EC	$A130EF	"MARS" when 32X is attached	
$A130F1		SRAM access register	
$A130F3		Bank register for address $80000-$FFFFF	
$A130F5		Bank register for address $100000-$17FFFF	
$A130F7		Bank register for address $180000-$1FFFFF	
$A130F9		Bank register for address $200000-$27FFFF	
$A130FB		Bank register for address $280000-$2FFFFF	
$A130FD		Bank register for address $300000-$37FFFF	
$A130FF		Bank register for address $380000-$3FFFFF	
$A14000	$A14003	TMSS "SEGA"	
$A14101		TMSS/cartridge register	
$A14102	$BFFFFF	Reserved	
$C00000	$C00001	VDP data port	
$C00002	$C00003	VDP data port (mirror)	
$C00004	$C00005	VDP control port	
$C00006	$C00007	VDP control port (mirror)	
$C00008	$C00009	VDP H/V counter	
$C0000A	$C0000F	VDP H/V counter (mirror)	
$C00011		PSG output	
$C00013	$C00017	PSG output (mirror)	
$C0001C	$C0001D	Debug register	
$C0001E	$C0001F	Debug register (mirror)	
$C00020	$FEFFFF	Reserved	
$FF0000	$FFFFFF	68000 RAM
